AVIENT SOLUTION

WithStand™ Antimicrobial Additives

WHY AVIENT?

- Provided full antimicrobial functionality at lower LDRs for 30% annual cost savings
- Designed universal carrier that enabled additive use across a variety of resins
- Reduced lead time over previous supplier by one week, enabling customer to better manage inventory levels and increase production efficiencies

LEARN MORE

KEY REQUIREMENTS

- Achieve lower let-down ratios (LDRs)
- Maintain sufficient antimicrobial functionality
- Preserve clarity or retain opacity, depending on resin
- Shorten lead times to minimize inventory and production bottlenecks
