

EFFICIENCY + PERFORMANCE

EXTRUSION CAST PROCESSOR

THIN PLA FILM & BAGS

AVIENT SOLUTION

CESA™ OnCap™ & BIO Additives

WHY AVIENT?

- Provided a performance additive to prevent biodegradable resin from sticking to the chill-roll surface
- Reduced the polymer friction factor on metal surfaces, resulting in a better film quality
- Helped improve the manufacturing process with fewer cleaning steps

LEARN MORE

KEY REQUIREMENTS

- Non-stick performance during manufacturing
- Excellent film quality with good aesthetics
- Efficient and clean process performance
- Compliant with food contact applications*

* Contact Avient for conditions of use and limitations.
