

STRIPPABILITY + LOW SHRINKAGE

EUROPEAN CABLE MANUFACTURER

SEMI-TIGHT BUFFER FOR
INDOOR DUPLEX CABLES

AVIENT SOLUTION

ECCOH™ 6151 Formulation

WHY AVIENT?

- Provided an alternative solution, with improved performance, compared to PA12 and PBT materials on the market
- Reduced shrinkage and improved strippability for easier installation
- Reduced smoke production, improving overall fire performance
- Increased processing speeds, reducing overall manufacturing cost

KEY REQUIREMENTS

- Low shrinkage for connectorization
- Easy to strip for efficient installation
- Good kink resistance
- Resistance to chemicals and filling compounds
