AVIENT SOLUTION

Bergamid™ FR Non-Halogen Flame Retardant Formulations

WHY AVIENT?

- Met regulatory requirements of UL 746C for ultraviolet light, water, and immersion exposures
- Delivered excellent high heat and eco-friendly performance of non-halogenated flame resistance
- Offered prompt development and on-site technical services to accelerate the speed-to-market

KEY REQUIREMENTS

- Good dimensional stiffness at high operating temperatures
- Eco-conscious performance of a non-halogenated fire retardant
- Easy processing
