

DURABLE + LIGHTWEIGHT

CARGO TRAILER MANUFACTURER

TRAILER WALLS & FLOOR

AVIENT SOLUTION

Polystrand™ APET Thermoplastic Composite
Tri-ply Laminate

WHY AVIENT?

- Provided an impact resistant and corrosion-proof composite material to prevent dents and rust
- Reduced labor costs by delivering a customized three-layer composite with a polymer film to replace sheet metal and metal framing
- Ensured supply chain reliability with fast delivery and quality control located in North America

KEY REQUIREMENTS

- Replace metal sheet skin and framing on current trailer design
- Reduce trailer weight and labor costs
- Provide a reliable supply chain and quality control system
