

# SAFETY DATA SHEET

This safety data sheet was created pursuant to the requirements of:  
Regulation (EC) No. 1907/2006 as amended by Regulation (EU) No. 2020/878, and  
Regulation (EC) No. 1272/2008

Revision date 22-09-2026

Revision Number 1

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

**Product Code** CC10365006  
**Material number(s):** CC10365006BG  
**Product Name** FDM PG REMAFIN RED PP34122139

### Other means of identification

**Unique Formula Identifier (UFI)** 4T13-A00H-800D-4KR8  
**Substance/mixture** Mixture

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

**Recommended use** For industrial use only  
**Uses advised against** None

### 1.3. Details of the supplier of the safety data sheet

#### Supplier

Avient Luxembourg S.à.r.l.  
19 Route de Bastogne, L-9638  
Pommerloch, Luxembourg  
Product Stewardship  
+352 26 90 50 35

For further information, please contact

**E-mail address** SDS.MB.Europe@avient.com  
**Company Phone Number** +352 26 90 50 35

### 1.4. Emergency telephone number

**Emergency Telephone** (Chemtrec 24h) +44 20 3885 0382

## SECTION 2: Hazards identification

This mixture has not been evaluated as a whole for health effects. Information provided on health effects of this product is based on the individual components. However, some vapors or contaminants may be released upon heating and the end-user (fabricator) must take the necessary precautions (mechanical ventilation, respiratory protection, etc.) to protect employees from exposure. See sections 8 and 11 for special precautions.

### 2.1. Classification of the substance or mixture

*Classification according to Regulation (EC) No. 1272/2008 [CLP]*

|                                                       |                                    |
|-------------------------------------------------------|------------------------------------|
| <b>Skin corrosion</b>                                 | Category 1 Sub-category C - (H314) |
| <b>Serious eye damage</b>                             | Category 1 - (H318)                |
| <b>Hazardous to the aquatic environment - acute</b>   | Category 1 - (H400)                |
| <b>Hazardous to the aquatic environment - chronic</b> | Category 2 - (H411)                |

## 2.2. Label elements

Contains Ethanol, 2,2'-iminobis-, N-(C16-18 and C18-unsaturated alkyl) derivatives

### Signal word

Danger

### Hazard statements

H314 - Causes severe skin burns and eye damage.

H410 - Very toxic to aquatic life with long lasting effects.

### Precautionary statements

P260 - Do not breathe dust, fume, gas, mist, vapors and spray.

P273 - Avoid release to the environment.

P280 - Wear protective gloves, protective clothing, eye protection and face protection.

P303 + P361 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower.

P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P310 - Immediately call a POISON CENTER or doctor.

P391 - Collect spillage.

### Additional information

This product requires child resistant fastenings if supplied to the general public. This product requires tactile warnings if supplied to the general public.

## 2.3. Other hazards

### Other hazards

No information available.

### PBT or vPvB properties

The mixture does not contain any substances meeting the PBT or vPvB criteria according to Regulation (EC) No 1907/2006, Annex XIII.

### Endocrine Disruptor Information

The mixture does not contain substances  $\geq 0.1\%$  that have endocrine disrupting properties according to Regulation (EC) No 1907/2006, Article 59(1) or Regulation (EU) 2017/2100 or Regulation (EU) 2018/605.

## SECTION 3: Composition/information on ingredients

### 3.1. Substances

Not applicable

### 3.2. Mixtures

| Chemical name | Weight-% | REACH registration number | EC No. (Index No.) | Classification according to Regulation (EC) No. 1272/2008 [CLP] | Specific concentration limit (SCL) | M-Factor | M-Factor (long-term) | Notes |
|---------------|----------|---------------------------|--------------------|-----------------------------------------------------------------|------------------------------------|----------|----------------------|-------|
| Ethanol,      | 5 - 10%  | No data                   | -                  | Acute Tox. 4 (H302)                                             | -                                  | 10       | 1                    | -     |

|                                                                                                       |  |           |  |                                                                                     |  |  |  |  |

**Full text of H- and EUH-phrases: see section 16**

#### **Acute Toxicity Estimate**

This product does not contain candidate substances of very high concern at a concentration  $\geq 0.1\%$  (Regulation (EC) No. 1907/2006 (REACH), Article 59).

## **SECTION 4: First aid measures**

### **4.1. Description of first aid measures**

|                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|-------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General advice</b>                     | Immediate medical attention is required. Show this safety data sheet to the doctor in attendance.                                                                                                                                                                                                                                                                                                                                      |
| <b>Inhalation</b>                         | Remove to fresh air. If breathing has stopped, give artificial respiration. Get medical attention immediately. Do not use mouth-to-mouth method if victim ingested or inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. If breathing is difficult, (trained personnel should) give oxygen. Delayed pulmonary edema may occur. |
| <b>Eye contact</b>                        | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Keep eye wide open while rinsing. Do not rub affected area. Remove contact lenses, if present and easy to do. Continue rinsing. Get immediate medical attention.                                                                                                                                                                              |
| <b>Skin contact</b>                       | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get immediate medical attention.                                                                                                                                                                                                                                                                                                 |
| <b>Ingestion</b>                          | Do NOT induce vomiting. Rinse mouth. Never give anything by mouth to an unconscious person. Get immediate medical attention.                                                                                                                                                                                                                                                                                                           |
| <b>Self-protection of the first aider</b> | Ensure that medical personnel are aware of the material(s) involved, take precautions to protect themselves and prevent spread of contamination. Avoid contact with skin, eyes or clothing. Avoid direct contact with skin. Use barrier to give mouth-to-mouth resuscitation. Wear personal protective clothing (see section 8).                                                                                                       |

### **4.2. Most important symptoms and effects, both acute and delayed**

|                            |                                                                                                                        |
|----------------------------|------------------------------------------------------------------------------------------------------------------------|
| <b>Symptoms</b>            | Burning sensation. Redness. May cause blindness. Coughing and/ or wheezing. May cause redness and tearing of the eyes. |
| <b>Effects of Exposure</b> | None.                                                                                                                  |

### **4.3. Indication of any immediate medical attention and special treatment needed**

|                           |                                                                                                                                                                                                                                                                                                                                        |
|---------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Note to physicians</b> | Product is a corrosive material. Use of gastric lavage or emesis is contraindicated. Possible perforation of stomach or esophagus should be investigated. Do not give chemical antidotes. Asphyxia from glottal edema may occur. Marked decrease in blood pressure may occur with moist rales, frothy sputum, and high pulse pressure. |
|---------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

**Suitable Extinguishing Media** Dry chemical, CO2, water spray or regular foam.

**Unsuitable extinguishing media** Do not use water jetstream.

### 5.2. Special hazards arising from the substance or mixture

**Specific hazards arising from the chemical** The product causes burns of eyes, skin and mucous membranes. Thermal decomposition can lead to release of irritating gases and vapors.

**Hazardous combustion products** Decomposition products can include and are not limited to: Carbon monoxide, Carbon dioxide (CO2), Nitrogen oxides (NOx), Ammonia, Fluorinated oxides, Hydrogen fluoride, Hydrogen chloride, Hydrogen sulfide, Sulfur oxides, Sulfur trioxide, Oxides of sulfur, Phosphorus oxides, Phosphine, Metal oxides

### 5.3. Advice for firefighters

**Special protective equipment and precautions for fire-fighters** Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protective equipment.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

**Personal precautions** Attention! Corrosive material. Avoid contact with skin, eyes or clothing. Ensure adequate ventilation. Use personal protective equipment as required. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.

**Other information** Refer to protective measures listed in Sections 7 and 8.

**For emergency responders** Use personal protection recommended in Section 8.

### 6.2. Environmental precautions

**Environmental precautions** Prevent further leakage or spillage if safe to do so. Should not be released into the environment. Do not allow to enter into soil/subsoil. Prevent product from entering drains.

### 6.3. Methods and material for containment and cleaning up

**Methods for containment** Prevent further leakage or spillage if safe to do so.

**Methods for cleaning up** Take up mechanically, placing in appropriate containers for disposal.

**Prevention of secondary hazards** Clean contaminated objects and areas thoroughly observing environmental regulations.

### 6.4. Reference to other sections

**Reference to other sections** See section 8 for more information. See section 13 for more information.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

**Advice on safe handling** Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes or clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Handle product only in closed system or provide appropriate exhaust ventilation. Do not eat, drink or smoke when using this product. Take off contaminated clothing and wash before reuse.

**General hygiene considerations** Avoid contact with skin, eyes or clothing. Wear protective gloves, eye protection and face protection. Do not eat, drink or smoke when using this product. Remove and wash contaminated clothing and gloves, including the inside, before re-use. Contaminated work clothing should not be allowed out of the workplace. Regular cleaning of equipment, work area and clothing is recommended. Wash hands before breaks and immediately after handling the product.

## 7.2. Conditions for safe storage, including any incompatibilities

**Storage Conditions** Keep containers tightly closed in a dry, cool and well-ventilated place. Protect from moisture. Store locked up. Keep out of the reach of children. Store away from other materials.

**Storage class (TRGS 510)** Storage class 8A.

## 7.3. Specific end use(s)

**Risk Management Methods (RMM)** The information required is contained in this Safety Data Sheet.

# **SECTION 8: Exposure controls/personal protection**

## 8.1. Control parameters

**Exposure Limits** This product, as supplied, contains materials that do not have reportable occupational exposure limits or are not subject to the reporting requirements of the local jurisdiction.

**Biological occupational exposure limits** This product, as supplied, contains materials that do not have reportable biological exposure limits or are not subject to the reporting requirements of the local jurisdiction.

**Information on monitoring procedures** Refer to European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) or equivalent national standard(s). Refer to European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) or equivalent national standard(s). Refer to European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy) or equivalent national standard(s).

## **Derived No Effect Level (DNEL) - Workers**

| Chemical name                                                                            | Oral | Dermal                    | Inhalation         |
|------------------------------------------------------------------------------------------|------|---------------------------|--------------------|
| Ethanol, 2,2'-iminobis-, N-(C16-18 and C18-unsaturated alkyl) derivatives (1218787-32-6) | -    | 0.42 mg/kg bw/day [4] [6] | 2.96 mg/m³ [4] [6] |

## **Notes**

- [4] Systemic health effects.  
[5] Local health effects.  
[6] Long term.

#### Derived No Effect Level (DNEL) - General Public

| Chemical name                                                                            | Oral                      | Dermal | Inhalation                      |
|------------------------------------------------------------------------------------------|---------------------------|--------|---------------------------------|
| Ethanol, 2,2'-iminobis-, N-(C16-18 and C18-unsaturated alkyl) derivatives (1218787-32-6) | 0.15 mg/kg bw/day [4] [6] | -      | 0.522 mg/m <sup>3</sup> [4] [6] |

#### Notes

- [4] Systemic health effects.  
[6] Long term.

#### Predicted No Effect Concentration (PNEC)

| Chemical name                                                                            | Freshwater                 | Freshwater (intermittent release) | Marine water                | Marine water (intermittent release) | Air |
|------------------------------------------------------------------------------------------|----------------------------|-----------------------------------|-----------------------------|-------------------------------------|-----|
| Ethanol, 2,2'-iminobis-, N-(C16-18 and C18-unsaturated alkyl) derivatives (1218787-32-6) | 0.214 µg/L<br>2 mg/kg food | 0.87 µg/L                         | 0.0214 µg/L<br>2 mg/kg food | -                                   | -   |

| Chemical name                                                                            | Freshwater sediment     | Marine sediment          | Sewage treatment | Soil            | Food chain |

| Ethanol, 2,2'-iminobis-, N-(C16-18 and C18-unsaturated alkyl) derivatives (1218787-32-6) | 1.692 mg/kg sediment dw | 0.1692 mg/kg sediment dw | 1500 µg/L        | 5 mg/kg soil dw | -          |

## 8.2. Exposure controls

### Engineering controls

Ensure adequate ventilation, especially in confined areas. Apply technical measures to comply with the occupational exposure limits.

### Personal protective equipment

#### Eye/face protection

Face protection shield. Tight sealing safety goggles.

#### Hand protection

Wear suitable gloves.

#### Skin and body protection

Wear suitable protective clothing. Chemical resistant apron.

#### Respiratory protection

Consult with an industrial hygienist to determine the appropriate respiratory protection for your specific use of this material.

### Environmental exposure controls

Local authorities should be advised if significant spillages cannot be contained.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

|                |                          |
|----------------|--------------------------|
| Appearance     | Pellet                   |
| Physical state | Solid                    |
| Color          | red                      |
| Odor           | Slight                   |
| Odor threshold | No information available |

| Property                                                 | Values            | Remarks • Method |
|----------------------------------------------------------|-------------------|------------------|
| Melting point / freezing point                           | No data available | None known       |
| Boiling point or initial boiling point and boiling range | No data available |                  |
| Flammability                                             | No data available | None known       |
| Lower and upper explosion limit/flammability limit       |                   | None known       |
| Lower explosion limit                                    | No data available |                  |
| Upper explosion limit                                    | No data available |                  |
| Flash point                                              | No data available | None known       |
| Autoignition temperature                                 | No data available | None known       |
| Decomposition temperature                                | No data available | None known       |
| SADT (°C)                                                | No data available | None known       |
| pH                                                       | No data available | None known       |
| pH (as aqueous solution)                                 | No data available | None known       |
| Kinematic viscosity                                      | No data available | None known       |
| Dynamic viscosity                                        | No data available | None known       |
| Solubility                                               | No data available | None known       |
| Water solubility                                         | No data available | None known       |
| Partition coefficient n-octanol/water (log value)        | No data available | None known       |
| Vapor pressure                                           | No data available | None known       |
| Density and/or relative density                          | No data available | None known       |
| Bulk density                                             | No data available |                  |
| Liquid Density                                           | No data available |                  |
| Relative vapor density                                   | No data available | None known       |
| Particle characteristics                                 |                   | None known       |
| Particle Size                                            | No data available |                  |
| Particle Size Distribution                               | No data available |                  |

### 9.2. Other information

#### 9.2.1. Information with regard to physical hazard classes

No information available

#### 9.2.2. Other safety characteristics

No information available

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

Reactivity No information available.

### 10.2. Chemical stability

Stability Stable under recommended storage conditions.

#### Explosion data

Sensitivity to mechanical impact None.

Sensitivity to static discharge None.

#### 10.3. Possibility of hazardous reactions

Possibility of hazardous reactions None under normal processing.

#### 10.4. Conditions to avoid

Conditions to avoid Exposure to air or moisture over prolonged periods.

#### 10.5. Incompatible materials

Incompatible materials Acids. Bases. Oxidizing agent.

#### 10.6. Hazardous decomposition products

Hazardous decomposition products None under normal use conditions.

### **SECTION 11: Toxicological information**

This mixture has not been evaluated as a whole for health effects. Exposure effects listed are based on existing health data for the individual components which comprise the mixture.

#### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

##### Information on likely routes of exposure

##### **Product Information**

|                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Inhalation</b>   | Specific test data for the substance or mixture is not available. Corrosive by inhalation. (based on components). Inhalation of corrosive fumes/gases may cause coughing, choking, headache, dizziness, and weakness for several hours. Pulmonary edema may occur with tightness in the chest, shortness of breath, bluish skin, decreased blood pressure, and increased heart rate. Inhaled corrosive substances can lead to a toxic edema of the lungs. Pulmonary edema can be fatal.                                   |
| <b>Eye contact</b>  | Specific test data for the substance or mixture is not available. Causes serious eye damage. (based on components). Corrosive to the eyes and may cause severe damage including blindness. May result in permanent damage including blindness.                                                                                                                                                                                                                                                                            |
| <b>Skin contact</b> | Prolonged skin contact causes burns. Symptoms may be delayed. Specific test data for the substance or mixture is not available. May cause irritation.                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Ingestion</b>    | Specific test data for the substance or mixture is not available. Causes burns. (based on components). Ingestion causes burns of the upper digestive and respiratory tracts. May cause severe burning pain in the mouth and stomach with vomiting and diarrhea of dark blood. Blood pressure may decrease. Brownish or yellowish stains may be seen around the mouth. Swelling of the throat may cause shortness of breath and choking. May cause lung damage if swallowed. May be fatal if swallowed and enters airways. |

##### Symptoms related to the physical, chemical and toxicological characteristics

**Symptoms** Burning sensation. Redness. May cause blindness. Coughing and/ or wheezing. May cause redness and tearing of the eyes.

**Acute toxicity** Based on available data, the classification criteria are not met.

##### Numerical measures of toxicity

The following ATE values have been calculated for the mixture  
ATEmix (oral) 9,615.40 mg/kg

#### Component Information

##### Delayed and immediate effects as well as chronic effects from short and long-term exposure

|                                          |                                                                                                  |
|------------------------------------------|--------------------------------------------------------------------------------------------------|
| <b>Skin corrosion/irritation</b>         | Causes severe skin burns and eye damage.                                                         |
| <b>Serious eye damage/eye irritation</b> | Causes serious eye damage. Causes burns. Classification based on data available for ingredients. |
| <b>Respiratory or skin sensitization</b> | Based on available data, the classification criteria are not met.                                |
| <b>Germ cell mutagenicity</b>            | Based on available data, the classification criteria are not met.                                |
| <b>Carcinogenicity</b>                   | Based on available data, the classification criteria are not met.                                |
| <b>Reproductive toxicity</b>             | Based on available data, the classification criteria are not met.                                |
| <b>STOT - single exposure</b>            | Based on available data, the classification criteria are not met.                                |
| <b>STOT - repeated exposure</b>          | Based on available data, the classification criteria are not met.                                |
| <b>Aspiration hazard</b>                 | Based on available data, the classification criteria are not met.                                |

##### 11.2. Information on other hazards

###### 11.2.1. Endocrine disrupting properties

|                                              |                                                                   |
|----------------------------------------------|-------------------------------------------------------------------|
| <b>Endocrine disruption for human health</b> | Based on available data, the classification criteria are not met. |
|----------------------------------------------|-------------------------------------------------------------------|

###### 11.2.2. Other information

|                              |                           |
|------------------------------|---------------------------|
| <b>Other adverse effects</b> | No information available. |
|------------------------------|---------------------------|

## **SECTION 12: Ecological information**

|                              |                                                                              |
|------------------------------|------------------------------------------------------------------------------|
| <b><u>12.1. Toxicity</u></b> | Very toxic to aquatic life. Toxic to aquatic life with long lasting effects. |
|------------------------------|------------------------------------------------------------------------------|

**Aquatic toxicity**

#### Component Information

|                                                   |                           |
|---------------------------------------------------|---------------------------|
| <b><u>12.2. Persistence and degradability</u></b> | No information available. |
|---------------------------------------------------|---------------------------|

**12.3. Bioaccumulative potential** No information available.

**12.4. Mobility in soil** No information available.

**12.5. Results of PBT and vPvB assessment** This product does not contain any substances that are assessed to be a PBT or a vPvB.

| Chemical name                                                                            | PBT and vPvB assessment |
|------------------------------------------------------------------------------------------|-------------------------|
| Ethanol, 2,2'-iminobis-, N-(C16-18 and C18-unsaturated alkyl) derivatives (1218787-32-6) | Not PBT/vPvB            |

**12.6. Endocrine disrupting properties** Based on available data, the classification criteria are not met.

**12.7. Other adverse effects** No information available.

**PMT or vPvM properties** Based on available data, the classification criteria are not met.

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

**Waste from residues/unused products** Dispose of in accordance with local regulations. Dispose of waste in accordance with environmental legislation.

**Contaminated packaging** Do not reuse empty containers.

## SECTION 14: Transport information

### IATA

14.1 UN number or ID number Not regulated  
14.2 UN proper shipping name Not regulated  
14.3 Transport hazard class(es) Not regulated  
14.4 Packing group Not regulated  
14.5 Environmental hazards Not applicable  
14.6 Special precautions for user  
Special Provisions None

### IMDG

14.1 UN number or ID number Not regulated  
14.2 UN proper shipping name Not regulated  
14.3 Transport hazard class(es) Not regulated  
14.4 Packing group Not regulated  
14.5 Environmental hazards Not applicable  
14.6 Special precautions for user  
Special Provisions None  
14.7 Maritime transport in bulk according to IMO instruments No information available

### RID

14.1 UN number or ID number Not regulated

|                                   |                |
|-----------------------------------|----------------|
| 14.2 UN proper shipping name      | Not regulated  |
| 14.3 Transport hazard class(es)   | Not regulated  |
| 14.4 Packing group                | Not regulated  |
| 14.5 Environmental hazards        | Not applicable |
| 14.6 Special precautions for user |                |
| Special Provisions                | None           |

**ADR**

|                                   |                |
|-----------------------------------|----------------|
| 14.1 UN number or ID number       | Not regulated  |
| 14.2 UN proper shipping name      | Not regulated  |
| 14.3 Transport hazard class(es)   | Not regulated  |
| 14.4 Packing group                | Not regulated  |
| 14.5 Environmental hazards        | Not applicable |
| 14.6 Special precautions for user |                |
| Special Provisions                | None           |

**ADN**

|                                   |                |
|-----------------------------------|----------------|
| 14.1 UN number or ID number       | Not regulated  |
| 14.2 UN proper shipping name      | Not regulated  |

| 14.5 Environmental hazard         | Not applicable |
| 14.6 Special precautions for user |                |
| Special Provisions                | None           |

**SECTION 15: Regulatory information****15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture****National regulations****Germany**

Water hazard class (WGK) strongly hazardous to water (WGK 3)

**European Union****Authorizations and/or restrictions on use:**

This product does not contain substances subject to authorization (Regulation (EC) No. 1907/2006 (REACH), Annex XIV). This product does not contain substances subject to restriction (Regulation (EC) No. 1907/2006 (REACH), Annex XVII).

**Regulation (EC) No. 1907/2006 (REACH), Annex XVII, entry number 78 as regards synthetic polymer microplastics (Commission Regulation (EU) 2023/2055):**

The synthetic polymer microparticles supplied are subject to conditions laid down by entry 78 of Annex XVII to Regulation (EC) No 1907/2006 of the European Parliament and of the Council.

|                                                                                        |                                                              |
|----------------------------------------------------------------------------------------|--------------------------------------------------------------|
| Maximum concentration of Synthetic Polymer Microparticles in the substance or mixture: | 100%                                                         |
| Generic information on the identity of the polymers in the substance or mixture::      | Polymers of propylene or of other olefins, in primary forms. |

## 15.2. Chemical safety assessment

### Chemical Safety Report

No information available

## SECTION 16: Other information

### Full text of any hazard and/or precautionary statements referred to under Sections 2-15

H302 - Harmful if swallowed  
H314 - Causes severe skin burns and eye damage  
H400 - Very toxic to aquatic life  
H410 - Very toxic to aquatic life with long lasting effects  
P260 - Do not breathe dust, fume, gas, mist, vapors and spray  
P264 - Wash face, hands and any exposed skin thoroughly after handling  
P280 - Wear protective gloves, protective clothing, eye protection and face protection  
P301 + P330 + P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting  
P303 + P361 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower  
P304 + P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing  
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing  
P310 - Immediately call a POISON CENTER or doctor  
P321 - Specific treatment (see supplemental first aid instructions on this label)  
P363 - Wash contaminated clothing before reuse  
P405 - Store locked up  
P501 - Dispose of contents and container in accordance with local, regional, national, and international regulations as applicable  
P273 - Avoid release to the environment  
P391 - Collect spillage
